Howard Cooper DDS For CORONER of Lake County

Dear Dental Colleague:

I would like to add my endorsement for Howard Cooper for Coroner of Lake County. I have known Dr. Cooper since he was a dental student at Loyola. In fact he attended his first lecture on Forensic Dentistry from me while at Loyola. Howard has demonstrated his pursuit of excellence within our profession by achieving a Mastership in the Academy of General Dentistry. He has served in leadership in the Lake County Dental Society. He has demonstrated his abilities in Government by serving on the Bannockburn Village Board of Trustees. He has demonstrated his leadership and service by being an integral part of the Federal Disaster Mortuary Operational Response Team (DMORT), being deployed to both New York immediately after 9-11 as well as qualifying and being an integral part of the DMORT Weapons of Mass Destruction Team. (DMORT itself is voluntary, and the DMORT daily pay doesn't cover office overhead. WMD team involves extra training and hazards). He has distinguished himself as a long time member of the Academy of Forensic Sciences as well as the American Society of Forensic Odontology.

If I lived in Lake County I'd most certainly vote for Howard. Because of the contentious nature of the National Election this year, "Down ballot" positions need your individual attention. Please consider voting for Howard!

Sincerely,

John P. Kenney DDS, MS FACD, FICD, FAAFS, FAAPD
Board of Directors, American Academy of Forensic Sciences

Diplomate, American Board of Pediatric Dentistry
Diplomate, American Board of Forensic Odontology
